

GEMECHU GETACHOW

SOFTWARE DEVELOPER

PROFILE

I am a committed and experienced software developer and data manager with over 7+ years of experience. I have worked in top institutions like Addis Ababa University and the Ethiopian Public Health Institute. My main skills include system design, software development, and managing large research data. I am skilled in modern tools and languages such as HTML, CSS, JavaScript, React.js, Python, R, and SQL. I also use SPSS, Stata, and Tableau for data analysis and reporting.

I work well in teams, communicate clearly, and always aim for high-quality results. I enjoy solving technical problems and learning new tools to support research and improve data systems.

WORK EXPERIENCE

Addis Ababa University Software Developer II

NOV 2024 - PRESENT

- Designed and developed complete system architecture, including databases and user interfaces, for research and administrative applications
- wrote clean, efficient, and reusable code that follows software development best practices.
- Collaborated with researchers and developers to understand system requirements and translate them into technical solutions

Ethiopian Public Health Institute Data Manager

MAR 2023 - NOV 2024

- Managed and integrated large-scale datasets for national health surveillance and research studies.
- Ensured high data quality by applying data validation and quality assurance processes.
- Maintained and updated ODK Aggregate and ensured smooth data synchronization with ODK collect on android tablets.
- Secured data storage and managed backups to ensure compliance with institutional regulatory standards.

Addis Ababa University Software Developer II

NOV 2021 - MAR 2023

- Created and optimized database schemas to support research data storage and retrieval
- Led the development of software tools and web applications for research needs.
- Conducted code reviews, identified bugs, and implemented solutions to improve software reliability.

Addis Ababa University Data Entry Supervisor

OCT 2017 - NOV 2021

- Supervised a team of data entry clerks to ensure input of large volumes of research and survey data.
- Reviewed and validated entered data to maintain accuracy and consistency across datasets.

Addis Ababa, Ethiopia

Nationality: Ethiopian

Gender: Male

EDUCATION

2013 - 2016

HARAMAYA UNIVERSITY

- BSc in Software Engineering
- GPA: 3.07/4.0

SOFT SKILLS

- Problem-Solving
- Communication
- Teamwork
- Time Management
- Adaptability

LANGUAGES

- English (Fluent)
- Amharic (Fluent)
- Afaan Oromo (Fluent)

TOOLS

Git

GitHub

VS Code

Docker

Jenkins

CAREER OBJECTIVE

To work as a full-stack developer and data manager where I can apply my skills in both frontend and backend development, along with strong data handling experience. I aim to build efficient, user-friendly web applications and manage clean, reliable datasets to support business and research goals. I am passionate about creating smart solutions that improve systems, support decision-making, and deliver real value.

METHODOLOGY / APPROACH

- Component based architecture
- Agile methodology
- Design Patterns
- MVC
- Test Driven Development
- User-Centered Design
- Continuous Learning

TECHNICAL SKILL

- **Programming Languages**
Java, Python, JavaScript, TypeScript
- **Web Development**
HTML, CSS, React, Angular, Vue, Node.js
- **Database Management**
SQL (MySQL, PostgreSQL), NoSQL (MongoDB), Oracle
- **System Design & Architecture**
Designing scalable and Secure Systems
- **APIs & Web Services**
RESTful APIs, GraphQL, JSON, XML
- **Testing & Debugging**
Unit testing, Integration testing, Tools like Jest, Mocha, Selenium
- **Cloud Platforms**
AWS, Azure, Google Cloud

CERTIFICATES AND AWARDS

Global Knowledge

- Microsoft certificate of achievement DUBAI, 2022

Cisco Network Academy

- Certificate of course compilation HARAMAYA, 2016

KEY PROJECTS / INVOLVEMENTS

- Participate in a side project that experiments NFT
- Collaborate on research that focused on blockchain
- Free code camp 100 day of coding challenge
- Participate in coding night projects a monthly hosted developer community group
